

Construction Corporation
RIEL was founded in Lviv.
Since then, the company
has become a leader
in the real estate market
in Lviv.

RIEL's philosophy is rather simple – we understand our clients, guarantee a high quality and a fair price to them. We have many years of experience and are able to put our clients' needs into practice through individual approach to the houses we build. Each RIEL's residential complex has its unique character that is manifested in its architecture, atmosphere, and name.

RIEL Corporation is improving day by day. We aim at keeping up with the times, that's why we are open to the best innovative tendencies. In its work the company employs only modern high-quality technologies. The number of innovations is increasing systematically.

In 2013 RIEL Corporation made the next step in its development and entered the biggest construction market in Ukraine, i.e. Kyiv construction market. RIEL's activity on both markets is first and foremost based on the principle that every single object of the company has an aesthetic and ethical value. Besides that, taking care of its clients and improving its approach to business RIEL gives its objects additional want-satisfying qualities. Our company has made it an aim to provide our clients with the most comfortable living conditions. Not only do we construct houses, but we also develop comfortable and useful facilities.

Thanks to RIEL, not only do people get a place to live, but also the keys to a better life! That's why our slogan is **FROM DREAMS TO REALITY!**

LVIV

AMERICA

RESIDENTIAL COMPLEX

The USA is a strong and powerful country that values human rights, freedoms and comfort. Since we also respect these values we created our own “American Dream” by constructing comfortable housing for people who are used to being architects of their own fortune.

This project is a real “American quarter” in the centre of Lviv. The residential complex appears to be extremely comfortable, well-planned, simple, secure, and unbound.

America offers cosy light-filled apartments, a spacious playground, and efficient facilities with a car park, swimming pools, a shopping center, and a sports complex.

THE CATEGORY OF HOUSING:

★ BUSINESS CLASS

THE TOTAL AREA OF THE QUARTER:

★ 75 000 m²

A SHOPPING CENTRE

★ 3 030 m²

A FITNESS CENTRE:

★ 2 500 m²

THE NUMBER OF PARKING LOTS:

★ 1 000

THE NUMBER OF APARTMENTS:

★ 1 250

Fresh approaches to constructing RC America will definitely appeal to real leaders whose free and ambitious ideas know no boundaries and who step by step pursue their goals ignoring hurdles on their way. America is waiting for personalities who want to achieve something others only dare to dream about.

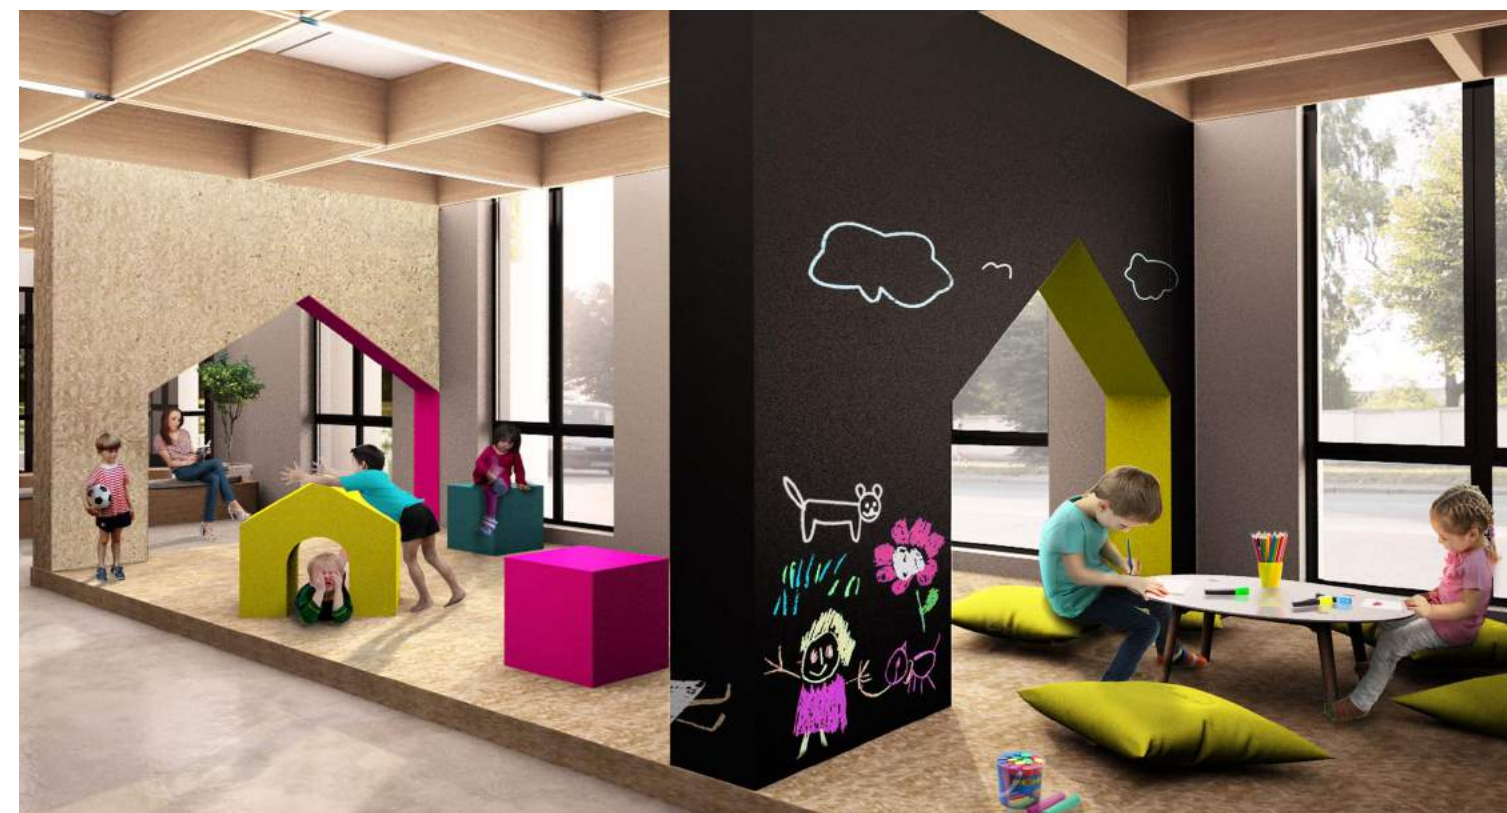

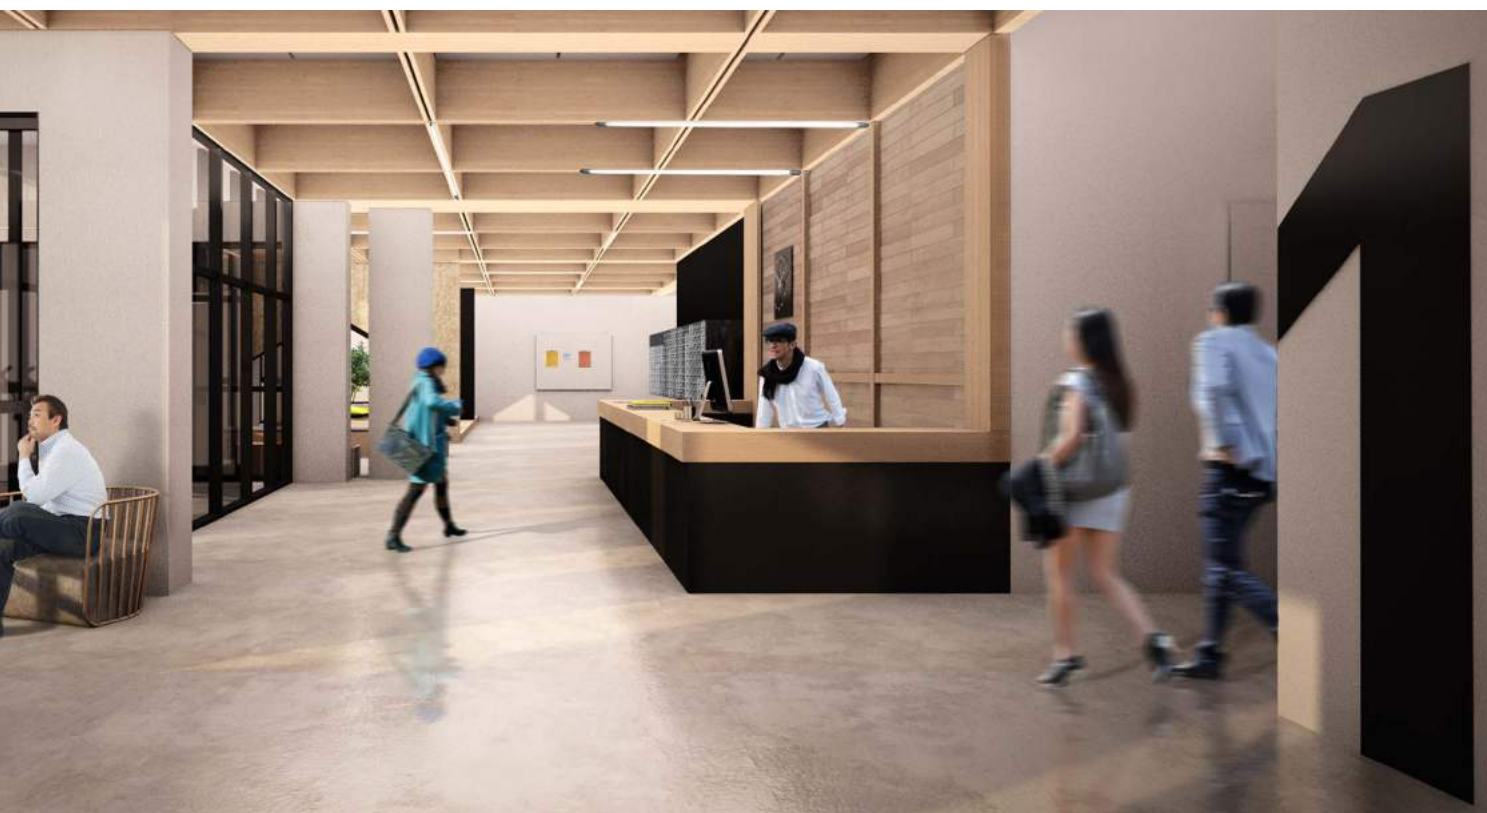

RC America is the place
where freedom is born!

RC America is the place
where freedom is born!

KYIV
(capital)

It feels so nice to communicate with your friends drinking delicious Lviv coffee with a bar of genuine chocolate in a cosy Lviv yard in the centre of Kyiv...

We are so much in love with Lviv that we recreated it in the historical part of our capital. In the comfort of old Podil we come across a harmonious quarter of seven houses. We are constructing the centre for people who are in love with Lviv, its culture and manners, its perfumes and peculiar inspiring atmosphere. Creative, businesslike, philosophical and hot-tempered people will be able to coexist here. Like in Lviv, guests from every part of the world will be accepted with utmost hospitality.

The combination of genuine Lviv atmosphere with modern European architecture will now become a real jewel of Kyiv. Panoramic windows will add more space. Comfortable design will satisfy every resident's needs. It also concerns the facilities, since there will be a supermarket, numerous shops, beauty salons, restaurants, cafes and sports centres.

We haven't overlooked the question of security in the RC Lviv Quarter either. Therefore, it's a fenced complex with security officers, its own yard, children's playgrounds and parks. You and your children will be safe here.

RC Lviv Quarter – this is the place to fall in love with!
